Talent Intelligence Platform Premium Edition

[redacted] alent Intelligence Platform Premium Edition ("Platform") is the foundational layer of [redacted] applications, that integrates w t ex st ng HR/IT systems (HRIS, ATS, LMS, VMS, Email, SSO and others) and leverages the enterprise talent data and outcomes through artificial intelligence to derive insights and inform workflows across the talent lifecycle management. The Platform comes with Enterprise grade security and privacy standards including ISO27001, SOC II Type II, and ISO 27701, and with encryption of data at rest and in transit.The Platform supports multiple languages and has the ability to configure role-based access across the organization.The [redacted] Job Intelligence Engine (JIE) provides a framework for streamlining your talent practices. By replacing archaic, ineffective, inconsistent, and often-recycled job descriptions with centrally defined 'Roles', Job Intelligence Engine combines AI, automation, and human expertise to enable more transparent, effective, and consistent decision-making around acquiring, cultivating, and retaining talent.

Functionality	**Talent Intelligence Platform Premium Edition**
